BLMOC

That stands for Bankerslifeman on Campus—and at Whitworth College, your BLMOC is Bruce Wendleburg. He'd like the opportunity to tell you about an insurance concept pioneered by Bankers Life Company—guaranteed insurability. The purchase of a Bankers Life plan now actually gives you the right to buy additional life insurance starting at three-year intervals up to age 40 without a physical and regardless of health. This means you can add up to $20,000 at any of these ages—or on the day you marry or have an increase in your family. And this option adds only a few pennies a day to the purchase price of your Bankers Life policy. For the facts on this unique plan, call on your BLMOC today.

HARRIET CHENEY COWLES MEMORIAL LIBRARY

The Harriet Cheney Cowles Memorial Library at Whitworth College has received a new wing and interior modernizing. The improvements are being used by Whitworth students this year.

The original building was dedicated in 1948 when Whitworth had an 800-member student body.

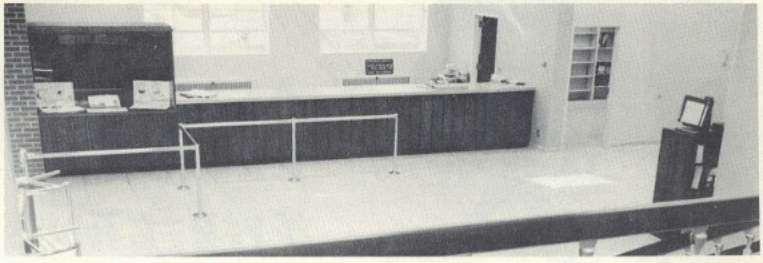

The expanded building contains 365 study carrels and stack capacity doubled to 100,000 volumes.

A gift from the family of the late Harriet Cheney Cowles made possible this project "which perpetuates a spirit of concern and interest in young people and in higher education."

The new building, now called a studarium, has more than doubled total useable floor space bringing the total square footage to 27,632 feet, and opening one complete floor which had not been in use. The new structure's design is in keeping with the original building design and that of other campus buildings. Carl W. Vantyne, Spokane, is the architect.

The new addition houses the entrance, circulation desk, foyer and lobby, work room for receiving and cataloging, and staircase to the present upper and lower floors of the library. Included are an elevator and completely new ventilation and fluorescent lighting throughout the building.

The former entrance to the building has been removed and the new section was added at the west end of the previous structure.

DR. MARK L. KOEHLER, President
Whitworth College

PRESIDENT'S WELCOME

Welcome to Whitworth College sports, and thank you for participating in an important part of our program.

We are especially excited this year at Whitworth as we begin working with a new academic calendar and curriculum known as "Core, 4-1-4." The motivation for the new program is the building of the "whole person," and we believe that athletics contribute significantly to that purpose.

Competition within the context of strictly observed rules helps prepare team members for the longer confrontations in the interplay of life. The development of self-discipline, teamwork and sportsmanship is more than a desirable adjunct to the academic, spiritual and social phases of our total program; it is a necessary asset.

The contribution of spectators is increased by the many advertisers and boosters of Whitworth athletics. This combined cooperation helps provide Inland Empire residents with an outstanding series of sporting events.

The Evergreen Conference to which Whitworth belongs is one of the most exciting in the country. From its teams each year many Little All-Americans are qualified. The Conference holds an impressive share of national records in the National Association of Intercollegiate Athletics.

The Whitworth College sports program is varied, exciting, stimulating and reflective of excellent coaching. Thank you for helping us continue its high quality by extending your own support and loyalty.

The Sun Set flies Northwest to Hawaii.

(They know their way to the Islands.)

How about staking yourself out a sunny spot on the beach at Waikiki?

Or grabbing a surfboard and catching a ride on a big breaker?

Sound good? Then fly Northwest to Hawaii.

We make it easy to come along. From Spokane, you can enjoy one-airline service straight through to the Islands—any day.

And, you can fly now and pay later, too. Just come up with 10% down (about $26 from Spokane), and take up to 24 months to pay the balance.

So come on. Join The Sun Set in Hawaii. And fly there on Northwest.

For reservations, call Northwest Orient Airlines, TEmple 8-4451, or your travel agent.

PIRATE TRACK . . . OUT OF THE PAST

Ed Matthews, 1962

In the spring of 1893, Whitworth won its first track championship as a member of the Washington Inter-collegiate Athletic Association. The college won the WIAA championship for four successive seasons against teams from the University of Washington, Puget Sound University, Washington College, Tacoma Acadamy, and Vashon University. During those years Whitworth athletes garnered approximately half of the gold medals in the track events. At a meeting held in Seattle, May 18, 1896, Whitworth won seven of the 13 gold medals. Team scores were as follows: Whitworth, 61; University of Washington, 44; Puget Sound University, 13; Vashon University, 8. The **Sumner Herald** in the May 22, 1896, issue published a glowing account of the meet:

> Out of 13 possible first prizes, Whitworth won 7, the state university 5, Puget Sound university 1, Vashon none. In addition to this Whitworth won more second prizes than any other one institution. When we remember that eleven of our boys were pitted against 45 contestants from the other schools included in the Association, we can at once see how markedly superior they are in dexterity. Our boys may justly feel proud of their victory over the great U of W . . . **Cathargo Est Delenda** was our watchword; and again old Whitworth proved herself an unconquerable foe. It was a gala day, celebrated in triumph; a day graced with honor and victory. Our boys came home with renewed determination to take the state university in another year.

At the 1897 meet, Whitworth again won more first places than any other competing team but lost the championship to the University of Washington on seconds and thirds.

the voice of the turtle

Speak softly and carry a big turtle. That's the projection for Fashion '68 at Harvey's. And turtles are brighter, bolder and more versatile than ever. Whether it be full turtle or mock, the drama is played out in baby cable and fisherman knit stitch. The cape-yoke panel design also provides a powerful example of the voice of the turtle. Take note of the voice of the turtle at Harvey's.

WHITWORTH GROWTH CONTINUES

In its 79th year of progress Whitworth College continues with a commitment toward development of the whole person that spells daring in the institution's willingness to launch out on new programs. This year the faculty and staff are stepping into a challenging new curricula and calendar that faces today's issues and provides an intensification of awareness.

Whitworth College was founded in 1890 in Sumner, Washington, by an outstanding Northwest pioneer. Dr. George F. Whitworth. It was moved to Tacoma in 1900 and then in 1914 to its present site just north of the city of Spokane. The college is located on a spacious 200-acre campus in pine-studded Country Homes Estates, a suburban area two miles north of the city.

The setting is perfect for the nurturing of deep contemplation on latter Twentieth Century concerns. From this

embryonic reflection the new Core 4-1-4 curricula and calendar seeks to produce whole persons prepared to dynamically cope with life as they find it.

The Core — Five investigative courses for all Whitworth students — lays bare the World's problems and triumphs and lets the Whitworth community face the present together. Through this curricula a search is conducted in which the individual discovers for himself the imperatives of the Christian faith. Small worlds are expanded to help redeem the large one.

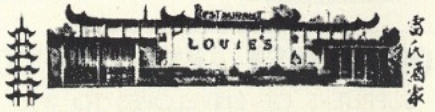

In Four-One-Four traditional time and space patterns are escaped, and awareness is intensified. With four courses in the fall, one course in January, and four courses in the spring the potential for direct involvement in the vital issues of life today has been provided.

Whitworth stands as a Christian institution with a high academic standing and a strong relation to its parent affiliate, the United Presbyterian Church, USA. The college receives active support from the Synod of Washington-Alaska and meets the needs of discriminating youth of all denominations who wish to pursue their studies in a Christian atmosphere.

ATHLETICS IMPORTANT AT WHITWORTH

In addition to a strong academic and Christian emphasis, Whitworth College supports a complete inter-collegiate athletic program within the rules set down by the NAIA, NCAA and the Evergreen Conference. Faculty and Administration view tne athletic contest as training ground for character, physical and mental fitness and other skills necessary for a successful life. College athletic teams, through clean and rugged play in all sports, build leadership, school spirit and aid in making Whitworth College favorably known throughout the Northwest and the nation.

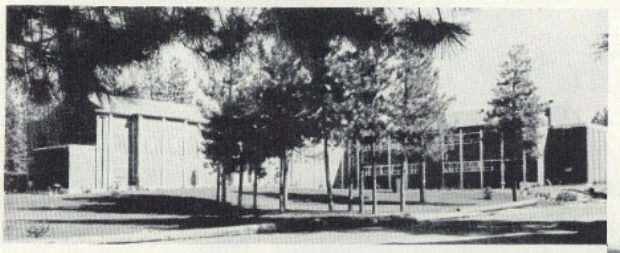

In 1948 Whitworth College became a charter member of the Evergreen Conference participating in football, cross country, swimming, wrestling, basketball, baseball, track, tennis and golf. Since then the college has produced several nationally ranked teams and has won conference championships in all sports except golf.

The tradition of athletics at Whitworth goes back to the beginning of the school when it was Sumner Academy in Sumner, Washington. Back in 1893 as a member of the Washington Inter-collegiate Athletic Association Whitworth won its first track championship. The College won the W.I.A.A. championshion for four successive seasons against teams from the University of Washington, Puget Sound University, Washington College, Tacoma Academy, and Vashon University.

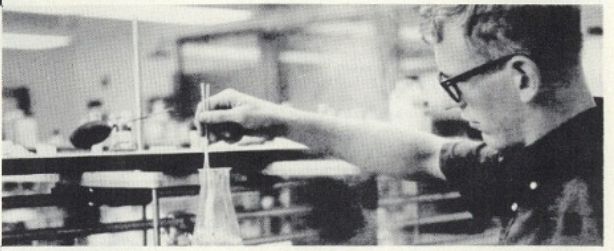

Whitworth students played intercollegiate baseball as early as 1893, winning the W.I.A.A. championship that year. The first known photograph of a Whitworth football team was taken in 1895. Newspaper accounts refer to a schedule of football games with Vashon College, Puget Sound University, and a team from Puyallup.

- Construction cost of $1,100,000 including fixed facilities and equipment
- 100-seat windowless amphitheatre-style lecture hall

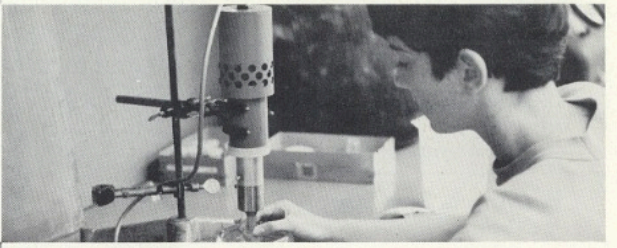

- 41,000 square feet of laboratories, classrooms and faculty office-labs for instruction in geology, first floor; physics, first floor; chemistry, second floor; and biology, third floor

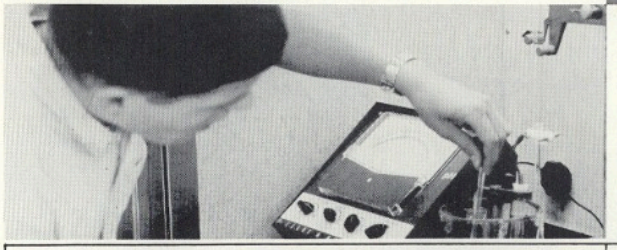

- Financed by private enterprise through gifts of individuals; businesses, churches and foundations
- Third floor greenhouse and rooftop astronomy observation deck

- Named for the late Eric A. Johnston, Spokane resident and president of the Motion Picture Association of America

- Prestressed concrete beam and floor construction with brick veneer
- Fully air-conditioned, electric service elevator

This new land-mark on Spokane's northern skyline has recently been completed and space is available. It offers important advantages in location, parking and every modern facility. For information, contact E. D. McCarthy, Inc., Northtown Office Building, N. 4407 Division, HU 9-4332.

The Baldwin-Jenkins Dormitory, women's residence hall, was completed in time for occupancy this Fall. The brick veneer structure for 160 women located on the northeast corner of the campus was made possible through a $900,000 federal loan. Featured in the two-story complex are two 80-bed units with an adjoining lounge area.

PIRATE BASKETBALL

Whitworth intercollegiate competition in basketball started during the 1905-06 year. Frequent opponents were St. Martin's, Puget Sound University, Bellingham Normal, and Parkland Athletic Club. The 1908 team won six out of 14 games, the 1910-11 team won six out of eight, and the 1913-14 team won eight out of eleven games.

Without a gymnasium during the 1914-15 year, Coach Ghormley did not organize a basketball team. Roundball activity began in earnest during 1915-16 when the team won five games and lost seven. Two of these victories were from Spokane College and one from Cheney Normal (EWSC).

Basketball was started again in 1920 after discontinuance during the war years, but an epidemic forced cancellation of the schedule after two games had been played. In 1922, the team was reported by the **Spokane Chronicle** to have compiled its most successful record since joining the conference. No statistics are given. In 1925-26, the team won five games out of 12. It was that year that Coach Curtis Newson took the team on a road trip to the coast during which Whitworth won, 29-25, from Ellensburg Normal (CWSC).

Whitworth's athletic fortunes took a turn for the better in the late 1940's, and by 1962 basketball teams had won four conference chanmpionships. Whitworth became a basketball power in the Evergreen Conference under the tutelage of coaches James McGregor and Art Smith, attaining its first conference championship in 1952. McGregor, a perpetual-motion mentor and expert promoter, brought in several "Pine-toppers," including 6-7 Ralph Poston and 6-10 Phil Jordan, to make the Whitworth teams of these years the tallest in the school's history. In 1952, McGregor took his teams to the NAIA tournament in Kansas City where Whitworth won its first two games. The team also represented the Northwest in Kansas City tournaments in 1954, 1955 and in 1961. In addition to the 1952 conference title, basketball championships were also won in 1954, 1955 (tie), and in 1961, the first two under Coach Art Smith and the third under Coach Dick Kamm.

*FOOTBALL HIGHLIGHTS

The record book dating to 1905, reveals a 153-161-7 cumulative standing for the Pirates out of 56 football campaigns. The Bucs only undefeated seasons came in 1916, 1954 and 1955, the latter two under Coach Jim Lounsberry. In 1960 the squad was undefeated in regular season play but lost to Humboldt State, 7-13, in an NAIA playoff game. The Pirates' longest win streak of 20 games began in 1953 with a 42-19 drubbing of the University of British Columbia and ended in 1956 when Central Washington topped the Whits 19-7. On the other hand the Whits had a winless drought of four years from 1928-31 with the exception of two 0-0 ties. In 1913 the Bucs were drubbed 100-0 by the University of Washington for their highest losing score while their highest winning score was 67-0 repeated in 1921 and 1961 over Wallace, Idaho, and Pacific Lutheran University, respectively.

John Murio

The high point of early football competition at Whitworth came in 1938 with the selection of guard Norman Richardson on the Williamson Little All-America first team. This was the first national sports award received by a Whitworth player, and its importance was emphasized by the fact that Richardson was the only first team selection from west of the Mississippi.

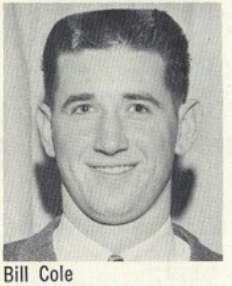

Charlie Reed

Whitworth's athletic fortunes took a turn for the better in the late 1940's, and by 1962 its teams had garnered 22 conference titles in five sports and gained an N.A.I.A. (National Association for Intercollegiate Athletics) national title in baseball. Conference titles included six in football, four in basketball, five each in track and tennis, and two in baseball. Also during these years, 21 individual All-America citations, as well as numerous all-conference berths, were awarded to Whitworth athletes.

While Whitworth football material began to increase in quantity and quality after 1950, there were standout players during the 1940's whose exploits on the field are still remembered. Among these were Lou Boni, Bruce McCullough, and the scoring combinations of Vern Tucker and Bob Cruzen and of Ed Kretz and Sam Adams.

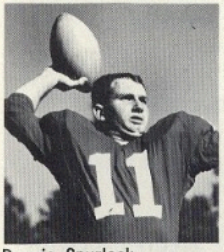

McCullough was a triple threat back who played in 1940 and 1941 and in 1946 after he returned from military service. It was the score he made against Cheney Normal College in 1941 that will be long remembered. On the kickoff, Whitworth's Paul Merkel received and threw a lateral pass to McCullough, who sprinted 95 yards for the team's lone score that year. Important as the play was, the highlight was the run down the sidelines made by the jubilant Rev. J. Renwick McCullough, who led "interference" for his son.

In 1947, Vern Tucker completed 36 passes out of 71 attempts and carried the ball 95 times for 485 yards during a season when Whitworth was a tail-end club.

Bill Cole

As a freshman in 1948, Sam Adams led the nation's small colleges in catching touchdown passes. On the throwing end of the Adams-caught passes was Ed Kretz; these two made an effective combination for all four seasons of their college careers.

Dennis Spurlock

How Whitworth football fortunes changed is seen in the following records: from 1940 through 1952 the team won 19 games, tied one, and lost 46. Between 1953 and 1964, the record was 77 won, one tied and 31 lost. The tide turned in 1953 when Coach James Lounsberry's team won the Evergreen Conference title, Whitworth's first football championship since 1922. On November 14, 1953, the Pirates, with a 42-19 win over the University of British Columbia, began a 20-game winning streak that was to last through the unbeaten seasons of 1954 and 1955 and into 1956. In addition to the titles won in 1953, 1954, and 1955, Evergreen championships in football came to Whitworth in 1959, 1960 and 1962.

Brilliant football stars were so numerous after 1950 that lack of space forbids mentioning all of them. Whitworth players appeared consistently on all-conference teams, and 11 All-America first and second team awards were won. The All-America winners were Sam Adams, first team in 1950 and 1952; Larry Paradis, first team, 1954; Bill Vander Stoep, second team, 1954; Walt Spangenberg, second, 1955; Bill Cole, first, 1959; Tom Black, second, 1960; Dennis Spurlock, first, 1962; John Murio, first, 1962; Charlie Reed, first, 1963; and Ken Sugarman, second, 1963.

The high point in football came in 1960 when the Whitworth team was listed fourth in the nation on the N.A.I.A. polls. The team played in the semi-finals of the N.A.I.A. Holiday Bowl against Humboldt State College but lost, 13-7.

Conference: 1 win 5 losses

Overall: 2 wins 7 losses

PIRATE TENNIS

Marsh Reynolds

Intramural tennis was played at Whitworth as early as 1901; intercollegiate tennis was started in 1909, according to the available records. In a tournament that year with the University of Washington, Schuyler Pulford of Whitworth won the singles title from the University of Washington star. Later, the Whitworth tennis players were defeated in a Portland tournament which included the University of Washington, Oregon Agricultural College, and the University of Oregon.

In 1926 William Davis was the Columbia Valley Conference tennis singles champion. The college enjoyed a good year in tennis in 1933, winning six tournaments to one for the opponents, 55 matches to 18, and 804 games to 621. Harold Penhalurick won every singles match except one and dropped only one doubles match. Irving Smith dropped only one singles match. The only other mentions of tennis in the records for 1933-40 are wins from Cheney and Gonzaga.

Bob Quall

For a number of years starting in 1944, Dr. Mark Koehler (present Whitworth president) served as tennis coach, developing the game into an intercollegiate sport at the college. Clyde Matters, another alumnus, served as head coach for eight years, with his squads winning the Evergreen singles championship for three successive years (1947-49). In 1958, Coach Alvin B. Quall brought his team to the Pirates' third championship. The teams continued their winning ways in 1959 and 1960 under Coach A. Ross Cutter, Jr. for two more conference titles and two district NAIA titles. In 1961, the team finished fourth in the national NAIA tournament. At that time, Marshall Reynolds and Bob Quall advanced to the semi-finals of the doubles play. Reynolds lost to the eventual singles champion in the quarter finals. He won the conference singles championship for four successive years. Pirate Al Boyles was Evco singles champ in 1965 and 1966. The Pirates shared the Evco net crown with CWSC in 1967 and sent two men to the national tourney.

ALUMNI . . . OUR LI

The ultimate continuing strength of Whitworth College rests with its alumni. Administrative officers come and go, facilities change, buildings are replaced, but the alumni provide the continuity that perpetuates Whitworth.

The Whitworth College Alumni Association is an organization composed of alumni from all parts of the United States and many foreign countries. This group, numbering over 4000 for the current mailing list alone, has been vital in the growth of the college. Every person who has taken 15 or more units at Whitworth College is a member of the Association, and so the membership potential far exceeds those on the rolls. There are no annual, life or installment plan membership dues asked of any member.

Members of the Association receive "The Campanile" and "Whitwords," official publications of the Association. Through this communication they receive news of the activities of their classmates and the various phases of growth on the campus. These periodicals are published without charge during the months of September, December, March and July.

In addition members of the Association receive announcements for Homecoming, Alumni Day and other alumni activities and are notified of chapter meetings within their own residential areas. At these meetings and events friendships and associations which began at Whitworth are strengthened and become lifelong.

The Board of Directors of the Whitworth College Alumni Association meets regularly to govern the Association. Four new members a year are elected to the board by the membership at large, each to serve for a three-year term. Twelve members represent commissions, societies, clubs and chapters. The meetings are opened to all interested alumni. Each class has a representative to the Alumni Board.

The purpose of the Alumni Association is to maintain a group which shall promote and foster the general welfare of Whitworth College through an expanding alumni program. The Association seeks to assist its members in their continued social, cultural and educational growth and development.

Alumni programs are planned to provide an opportunity for fellowship and social inspiration based on a common and shared educational experience. Homecoming Day in the fall, Alumni Day in June, at which time class reunions are held, athletic events and alumni chapter programs bring members topics of timely significance. The Whitworth College Alumni Association concentrates its efforts on strengthening the College to reach its goal of affording a continuing education that is broad, thorough and Christian in nature.

The Alumni Association office is located in McEachran Hall and is open from 8:00 a.m. to 4:30 p.m. Monday through Friday. It is maintained by the College and through its facilities members of the Association may realize the benefits of continued interest and support of the general welfare of the College.

and 1960. In 1960 the Whitworth team under Coach Paul Merkel, also an alumnus, won the NAIA national baseball tournament, the only time a Whitworth team has won a national title. At that tournament, pitcher Ray Washburn was selected as the most valuable player and gained a place on the All-America first team. Later, Washburn signed a pro-contract for a $50,000 bonus with the St. Louis Cardinals for whom he is still hurling. Other Whitworth players who have signed pro-baseball contracts include Bill Kelso, Wayne Norton, Norm Harding and Bob Baird.

WRESTLING

Wrestling was added to the intercollegiate sports program at Whitworth in 1965 under coach Rod Enos. Athletic director Paul Merkel had scheduled several non-competitive

matches the year before. In 1966 the Pirates finished fourth under coach Bill Bennett in Evco competition, as they did their first year, and look forward to a larger turnout of matmen and a broader schedule in 1968.

CROSS COUNTRY

Whitworth added cross country to its intercollegiate athletic program in 1963 and since then has twice won national rank. A five-man harrier squad placed second and ninth, respectively, in 1965 and 1966 in national NAIA cross country meets in Sioux City, S.D.

SWIMMING

Whitworth added swimming to its intercollegiate athletic program in 1962 and in its first season of competition Roy Messler broke the conference 100-yard breast stroke record. No conference championships have been won. Pirate mermen may be expected to fare better upon construction of an indoor swimming pool on the campus.

PIRATE BASEBALL

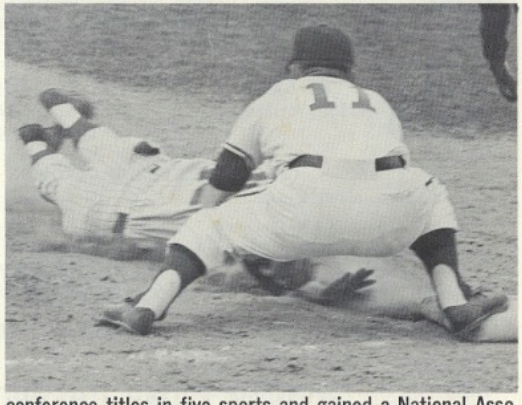

Whitworth students played intercollegiate baseball as early as 1893, winning the Washington Intercollegiate Athletic Association championship that year.

In 1905, according to incomplete records, Whitworth played the University of Washington twice that year and lost both games. The Pirates beat Washington 17-9, in baseball during 1906. Whitworth also played baseball with the University of Puget Sound, St. Martin's College, and with nearby high schools and independent teams but had only indifferent success. The first cross-state road series recorded for Whitworth came during the 1907 baseball season when the team won four of five games it played in eastern Washington. During this trip, the baseball team won from Gonzaga University, 5-4, at the first recorded athletic contest between the two institutions.

During the spring of 1916, the baseball team won four out of six games in collegiate competition.

Baseball competition during the 1920's was marked by highs and lows. During the first year, a poor field led to discouragement among the team members, but in 1921, the college won four out of its five games. In 1922, Coach Abe Cohn and his team, with nine wins, had the only undefeated season in baseball in the history of the college. During the next year, the team won four games and lost two. These were the only successful seasons for baseball during the period.

Whitworth's athletic fortunes took a turn for the better in the late 1940's and by 1962 its teams had garnered 22

conference titles in five sports and gained a National Association Intercollegiate Athletics national title in baseball. Conference titles included six in football, four in basketball, five each in track and tennis, and two in baseball. Also during these years, 21 individual All-America citations, as well as numerous all-conference berths, were awarded to Whitworth athletes.

In 1953, Coach Sam Tague, an alumnus, led the Pirates to their first eastern division baseball title in the Evergreen Conference. The years 1959-62 found the Pirates winning four eastern division titles and the conference title in 1959

WHITWORTH QUICK QUOTES

- 3 academic divisions: humanities, social science, basic science, offering 22 major study areas
- 76 member faculty
- Personalized instruction and guidance
- 41% of last graduating class went on to graduate school — nearly half of those with grants, fellowships, or teaching assistantships

- Over 4000 alumni serving in positions of leadership and service around the world
- Graduates have won 3 Danforth fellowships, 3 Woodrow Wilson grants, 2 Fullbright scholarships, 1 full Harvard Business School scholarship, 1 Rhodes fellowship, and several

NDEA grants and teaching fellowships

THE COACHES

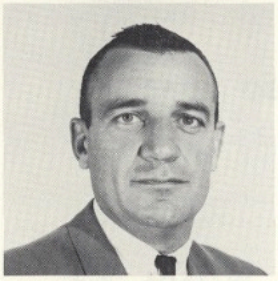

ROLLAND (ROLLIE) ROBBINS . . . HEAD COACH

A native Spokanite and 1951 graduate of North Central High School, Coach Robbins compiled a 28-8-1 record at Newport High School, near Seattle, including the Kingco League championship in 1967-68 and two second place finishes.

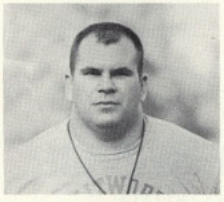

Robbins received his M.Ed. degree from Whitworth in 1960. During undergraduate days he was a four-year letterman in football playing guard and linebacker while the Pirates lost only 6 games in 36 starts. Prior to his Newport stint, he was coach and math and physical education teacher at Bellevue, Sumner and Montesano high schools.

Robbins said he would coach primarily a wide-open passing game. His high school teams have always hit over 50% via the air lanes. He said he would build a strongly disciplined squad which will "prove that gentlemen can hit hard and first."

PAUL MERKEL

Paul Merkel, athletic director and coach of many skills, begins his twelfth season of coaching Whitworth backfield candidates. Prior to coming to Whitworth, he chalked up coaching experience in several Washington schools. With 12 summers of semi-professional baseball competition to his credit, Paul is also head baseball coach. In 1959 and 1960 he guided the Pirate diamond nine to the Evco title and captured the 1960 NAIA National Tourney in Sioux City. As athletic director, Paul has developed a broad and sound program of intercollegiate sports which now includes football, basketball, baseball, cross country, track, tennis, golf, swimming, and wrestling. He holds the B.A., B.Ed., and M.A. from Whitworth.

DON MIKISKA

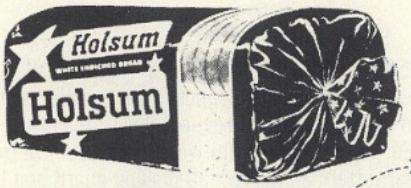

Don Mikiska, graduate assistant, is specializing in defensive line. Twenty-three-year-old Mikiska, who hails from San Jose, California, is a 1967 graduate of Whitworth, earned his letter as a tackle and earlier lettered at Washington State University as a freshman lineman. He coached last year as an assistant at Marysville High School. While at Whitworth this year he will be working toward his Masters Degree in Physical Education. He graduated as a history major.

TOM METRAKOS

Tom Metrakos, a graduate assistant, will be working primarily with centers and linebackers. A 1967 graduate of the University of Pittsburgh, the 6'3", 240-pound Metrakos was the 13th draft choice of the San Francisco 49ers before being cut and coming to the Shockers. He will be free on the weekends for Shocker Continental League games.
